

A UNIQUE APPROACH TO ALL YOUR BOOK-KEEPING AND ACCOUNTANCY NEEDS DESIGNED FOR THE 21ST CENTURY

Financial & Professional Support Services

You throw all your relevant paperwork into the box that we provide and collect from you weekly. Within days your data is available to you, through our secure servers, on line anywhere and anytime that you have a broadband connection. Unless requested otherwise, we shred the documentation so there are no more filing and document storage problems, (a scan of every document is accessible within three mouse clicks).

Monthly accounts incorporate clear and readily understood graphic dashboards and easy to understand management information. Payroll, vat, Director's Tax Returns and Year End Accounts are all included within the service.

Highly qualified Virtual Finance Directors are available, by arrangement, for those crucial meetings when you need professional support.

Overall, a better presented package with unrivalled ease of access, and all at a price that will be at least 30% cheaper than your current arrangement.

GET THE POWER OF THE WEB WORKING FOR YOU

DEVELOPED BY

A 10:1 Return on your Marketing Investment – We can show you how to achieve it.

The Marketing System is a complete package of online tools and support infrastructure that capitalises on the Information Age. Included are Website Building, Search Engine Marketing, Copywriting Services, Graphic Design and Branding, Customer Relationship Management, Online Networking, Digital Media and much more.

We can run the entire campaign for you, or with our training and guidance, you can manage it yourself; either way you would be in complete control.

Originally developed for the Hospitality market, the process is now being rolled-out to other sectors. Taking the best of web marketing practice, standardising the approach and utilising in-house resources to minimise the cost, and providing a complete support package to guide our clients through the implementation, the results have been quite outstanding; regularly delivering returns in excess of 10:1 on the modest investment.

HAVE YOUR SOFTWARE TAILORED TO MEET YOUR NEEDS PRECISELY

GHOST RESOURCE

High Quality Software and Systems development at one third of UK prices.

At Ghost-Resource we have established our own team of more than fifty highly qualified staff in our purpose-built off-shore office. Each team member is a university graduate, who has additionally gone through our own internal intensive training programme, and collectively we have the full range of language and database skills; Dot Net, Java, Cold Fusion, PHP, SQL, MySQL, Oracle, SAP etc. The team is fully integrated and includes Developers, Systems Architects, Project Managers, Quality Assurance Engineers and Technical/Copy Writers.

A key benefit, that obviates the problems that can be experienced by going directly off-shore, is that we have a London based office and interface for Design, which doesn't always travel well, and Technical and Commercial support that gives the same "level of comfort" as would be found with a UK based operation. You can also talk directly to our off-shore team through a London telephone number.

Our sister company Amigo Software specialises in telecommunications, in which it has an internationally renowned presence.

WHERE DO YOU WANT YOUR COMPANY TO BE TOMORROW?

NED provides an all-round solution to managing change introduced by the complex world of business; we operate in all market sectors for clients with a turnover up to £100M.

NED facilitates in two ways: firstly through the expertise of business professionals who can guide and mentor businesses, and secondly through the introduction of carefully chosen Alliance Partners to provide those key bespoke solutions that are often so difficult to find.

Alliance Partners include some of the FTSE100 companies, major high street Banks and top Accountancy practices etc.- there are no financial arrangements between NED and the Alliance partners – thereby allowing the best, impartial advice.

NED Directors are an extended member of your own team, sharing the load, minimising disruption and the knock-on effects of change, so that your Executive team can focus on core business activities.

The NED key measure of its success is the enhanced client performance and profitability – a real value added proposition. – the methodology embraces all business areas and introduces the solution that the company needs and not what a supplier would like to sell.
